Subject: Letter of Recommendation for Sam Sakocius and Omnigolf

To Whom it may concern:

I have had the pleasure of working with Sam Sakocius and Omnigolf in the creation and design of two Putter Face golf facilities in Bangkok, Thailand. Putter Face is a multidiscipline golf entertainment venture that offers targeted F&B with a hi tech golf theme.

Including Simulators, Ranges, and Putting Courses. The creative work has been outstanding, and the technical design has been top notch.

Omnigolf has been responsive and timely in all aspects of their deliverables. I could not be happier about choosing Omnigolf and will certainly be using them for all my future sports entertainment facilities.

Best regards,

Shane Wilding
